The performance dashboard is a tool within Blackboard that provides an overview of user activity in a course shell. Any user enrolled in a course will be listed in the Performance Dashboard along with information about that user’s activity in a given course. Only instructors with access to the Control Panel menu will have access to the Performance Dashboard.

To view the Performance Dashboard, click on Evaluation under the expanded Control Panel menu and then click on Performance Dashboard.

The Performance Dashboard columns display the following information:
1. Last Name
2. First Name
3. Username
4. Role (i.e. student, instructor, grader)
5. Date/time of last login
6. Days since last login
7. Review status
8. Adaptive Release
9. Discussion Board
10. Early Warning System
11. View Grades

Review Status

This column indicates the number of items marked as **Reviewed** by each student. Clicking on a number will display a list of all items for which the review status has been enabled, as well as which items specifically have been marked as reviewed by that student.

<table>

</tbody>
</table>

Adaptive Release

Clicking on the Adaptive Release button ![Eye Icon](image) brings up a course map indicating the visibility of each item for that student. An open eye icon indicates an item that is visible to that student, while a closed eye icon indicates an item that is not visible to that student.

Discussion Board

This column lists the number of posts a student has submitted to the discussion board. Clicking on the given number will display a table providing additional statistical data about the forums in which the student participated.

Early Warning System

If rules for the Early Warning System have been implemented by an instructor, number values will appear in this column. Clicking on the number link will open the Early Warning System screen indicating the rules currently in place and whether the student is, or is not, in violation of a specified rule.

View Grades

Clicking on the View Grades icon ![Grades Icon](image) will open the Grade Center for that course. This is no different than accessing Grade Center through the link in the Control Panel.
